

Front End Engineer - React (full-time)

Want to be part of an exciting mission and help people boost their financial fitness?
Want to apply your development skills to help solve a big social challenge?

Yes? Then join our team!

Monkee is an early stage startup in the fintech space. Our financial coach is combining insights from the field of behavioral economics with machine learning to help people develop more sustainable financial habits. Our mobile application has been live since 2019 and we are seeking to grow our tech team by bringing on board an experienced Front End Engineer.

What you will do:

- Lead the design and development of a brand-new platform for B2B customers
- Continuously improve the existing website of the company
- Build web tools with the focus on driving platform growth

What you offer:

- 3-5 years of relevant web development experience in React (preferred), Angular or Vue
- High proficiency in front-end technologies (HTML, CSS and JavaScript)
- Experience with Wordpress or PHP is a plus
- Providing users with a great user experience guides your development efforts
- Passion for building solutions that help people and create social impact
- Jira, Scrum and Sprint are not just buzzwords to you

What we offer:

Becoming an early development team member of a venture-backed startup where you help to steer the product and make a real impact on peoples' lives. You will get the freedom to work the way that suits you.

- Competitive minimum wage, hardware of your choosing & additional incentive schemes
- Central office location in the lifestyle capital Innsbruck
- Flexible working hours and home office arrangements
- A badass team that just waits for you to join
